3. GOOD TO KNOW

- With the CRLS Playkit you can see how the 4 different surfaces can change the mood in a room. The Playkit comes with a high quality BB&S K7 5600K magnetic LED ball (3 Watts) and attaches to a 9V Block Battery (not included!)
- Place the light under the window pointing it straight up and use the C-Reflectors to light the room.
- If you put the chair or the plant closer to the window you can see the different shadow qualities when lighting through the window.
- When finished experimenting with the Play Kit you can use the K7 Twist LED with a D-Tap cable (not included) and the small C-Reflectors on your real sets. For eyelight, tabletop work and more!
