

Scaled to impress!

Test the Cine Reflectors in our miniature studio and see how they can change the mood of a room!

1. CONTAINS

- 1 x Cardboard Studio with furniture
- 2 x 7x7cm Cine Reflectors (DIFF 0,1,2) + Neoprene Sleeves
- 2 x 15x15cm Cine Reflectors (DIFF 3+4) + Neoprene Sleeves
- 1 x Manual
- 1x Cloth

Weight in total: 0,6kg / 1,3lb

2. C-REFLECTORS

- DIFF 0** - Sharp circular ray of light
- DIFF 1** - Hard circular ray of light
- DIFF 2** - Medium circular ray of diffused light
- DIFF 3** - Soft circular ray of diffused light
- DIFF 4** - Maximum diffused reflection

Precision manufactured aluminium coated surface, 97% reflectivity (only 3% loss) & 100% color rendering

3. GOOD TO KNOW

- With the miniature C- Lab you can see how the 5 different surfaces can change the mood in a room.
- Place any light under the window pointing it straight up and use the Cine Reflectors to light the room.
- If you put the chair or the plant closer to the window you can see the different shadow qualities when lighting through the window.
- When finished experimenting with the C-Lab you can use the small Cine Reflectors on your real sets. For eyelight, tabletop work and more!
