2. CINE REFLECTORS

- DIFF 1 ● Hard circular ray of light
- DIFF 2 ● Medium circular ray of diffused light
- DIFF 3 ● Soft circular ray of diffused light
- DIFF 4 ○ Maximum diffused reflection

Precision manufactured aluminium coated surface, 97% reflectivity (only 3% loss) & 100% color rendering
Cine Reflectors are protected with high quality neoprene sleeves. Hang them on the stand with the color coded loops.

3. GOOD TO KNOW

- With the larger 25x25cm Cine Reflectors DIFF 3 and DIFF 4 you can sculpt close-ups of faces and see the spread of the light on smaller set-ups.
- The 15x15cm Cine Reflectors are great for sunny spots or giving clothing or parts of a face some extra glow.
- You can also get a first look at double Cine Reflections by directing the light from the 15x15cm Cine Reflectors to the 25x25cm Cine Reflectors.

MOUNTING

attach your C-Wheel via the easy access point of the Speedrail on the back of the Cine Reflector.
