

# DIFFUSION 0 C-REFLECTOR

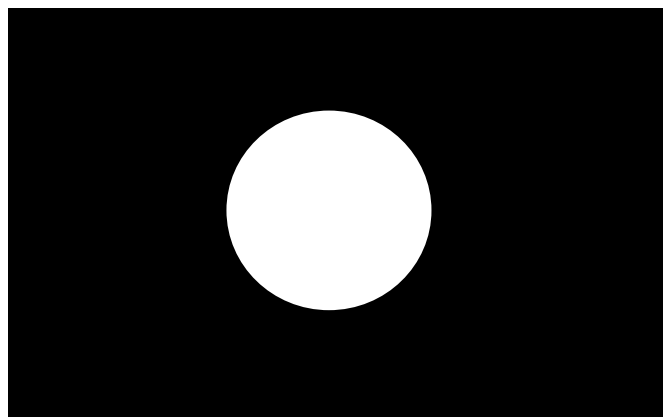

Reflector inspired  
by a glass mirror.

## 1. BEST USED FOR

- Redirecting light
- Very hard spells of light in tungsten and daylight environment

**TIP:**

If you need the quality of a real glass mirror (like sharp square edges when redirecting sunlight), it is in fact best to use a real glass mirror. Even if our manufacturing quality is impeccable, you will see a difference, especially when redirecting sunlight at a large distance.

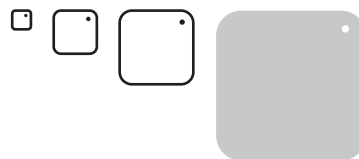

## 2. SPECS

- Enhanced glass mirror replacement
- Can't shatter
- Lighter than glass
- More output than standard mirrors
- 100% color accuracy

## 3. SIZES & WEIGHT
