

SKY BLUE DIFFUSION 2 C-REFLECTOR

Reflector inspired by skylight. Powerful, strong but with a soft diffusion.

1. BEST USED FOR

- Directed - diffused light with a punch
- Redirecting light from one C-Reflector to another
 - Avoid adding a new source
 - Extend the path of your light beam to imitate a natural fall-off (even on short distances)
- Extending light sources with 100% color accuracy (sodium vapour, practicals, green fluorescents, etc.)

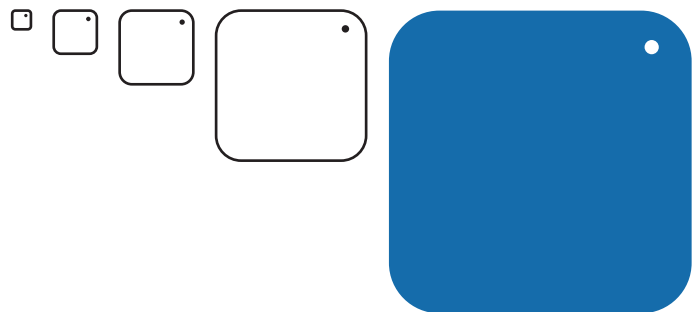

2. SPECS

- Medium circular ray of diffused light
- Precision manufactured aluminium coated surface
- Reflectivity: 97% (only 3% loss)
- Color Rendering: 100%
- Spill light free light source - control diffused light without flags or frames

3. SIZES & WEIGHT

7x7 cm / 2,7x2,7 inch (0,04 kg/0.09lb)
 15x15 cm / 5,9x5,9 inch (0,14 kg/0.31lb)
 25x25 cm / 9,8x9,8 inch (0,40 kg/ 0.88lb)
 50x50 cm / 19,7 x 19,7 inch (1,42kg/3.13lb)
 100x100 cm/ 39,4 x 39,4 inch (without frame) (5kg/11lb)

Thickness: 3,6mm/0,14 inch

MOUNTING

attach the C-Wheel or a C-Spigot via the easy access point of the C-Rail on the back of the C-Reflector.
